

# WholeLife Authentic Care

WholeLife Authentic Care is a rapidly growing medical practice with a dynamic healthcare team consisting of: OBGYNs, Family Medicine, PA, nurses, sonographers, administrative and clerical staff, and FertilityCare™ Practitioners. Founded as a 501c3 nonprofit to serve North Texas, WholeLife offers a world-class clinic that honors the sanctity of life, respects the dignity of women, and serves the whole family. What makes this practice so unique is the new scientific approach to managing reproductive health: Creighton Model FertilityCare™ System and NaProTECHNOLOGY™.

**POSITION:** NaProTECHNOLOGY™ Surgical Fellow

**DESCRIPTION:** WholeLife Authentic Care is seeking a Board-Certified candidate that has completed the St. John Paul the Great Fellowship in NaProTECHNOLOGY™ and is eager to join our efforts. The physician will offer a full range of obstetrics, gynecology, infertility, and surgical services. WholeLife reaches to all faith denominations but adheres to the teaching of the Catholic Church and the Ethical and Religious Directives for Catholic Health Care Services as outlined by the United States Conference of Catholic Bishops.

The physician will be part of a dynamic healthcare team trained in the Creighton Model FertilityCare™ System consisting of mid-level providers, nurses, sonographers, administrative and clerical staff, and FertilityCare™ Practitioners to offer integrative women's healthcare.

WholeLife benefits from a very supported hospital relationship, with the physician having access to multiple DaVinci robots. There is a high demand for surgical expertise, with the current practice referring out to other surgical fellows in Houston. This presents an excellent opportunity for the incoming physician to meet a significant surgical demand within the local community and contribute to the growth of the practice.

The physician will be under the supervision of the Medical Board of Directors. Opportunities for community outreach, including collaboration with area pro-life centers and access to resident and medical school programs, are available. North Texas is a rapidly growing area with a relatively low cost of living. The community offers many amenities both indoors and outdoors and is a fantastic environment for a growing family.

**REQUIREMENTS:**

- Completion of the St. John Paul the Great Fellowship in NaProTECHNOLOGY™
- Solid recommendation from faculty at Pope Paul VI Institute
- Board Certified (minimum Board Eligible) in Obstetrics/Gynecology
